“UNG used GR Marine on a project for one of our most Prestigious clients. GR Marine’s workmanship and professionalism during the project was second to none. UNG will definitely be using them in the future for similar projects.”

Scott Davy Project Manager InfraNorth

“Glyn and his team at GR Marine work to a very high standard of quality products and workmanship, completed ahead of schedule and within our budget and the team remained focused and courteous throughout.”

Neil Hibbert Chief Engineering officer European Seaway

“TICA has been representing organizations within the industrial and commercial thermal insulation for almost 60 years : supporting and developing best practice, and providing the very best industry training. GR Marine is a full member of TICA and has registered employees on the L2 apprenticeship in Thermal engineering .

TICA employs highly skilled training staff who have all had many years practical experience as Thermal Insulators prior to completing their training qualifications.

TICA currently represents over 100 companies, ranging from multi nationals to small specialist contractors (like GR Marine) our members engage at regular Regional meetings and influence and assist with the development of the training programs, work on our Technical Groups moving the industry forward and ensuring that the best practice is shared with all members.”

Marian Marsland CEO TICA
